Allowable Subject Matter

1. Claims 1-40 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. Regarding claims 1,8,25,26,38,39,40, The prior art of record considered alone or in combination neither anticipates nor renders obvious a method of acquiring a gated pilot signal in an expanded PN space split into a plurality of N non-overlapping groups of specific pilot offsets, wherein the N groups are defined, a search of only a first of the N groups is necessary for acquisition of the gated pilot signal, while when a search of N or fewer groups is necessary for acquisition of the gated pilot signal, the method comprising: searching the first group to identify the gated pilot signal; searching at least the first group to identify the gated pilot signal, but fewer than N groups; and identifying the gated pilot signal from the searched groups, wherein the first group contains all possible specific pilot offsets for $PN_INC = \max$.

The prior art of record provided numerous teachings of methods for acquiring a gated pilot signal. However, the prior art of record failed to specifically disclose identifying the gated pilot signal from the searched groups, wherein the first group contains all possible specific pilot offsets for $PN_INC = \max$.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
